PROFESSIONAL EXPERIENCE

Assistant Professor in Accounting, Erasmus University Rotterdam; Rotterdam (NL)

Jun 2017 - Present

- *Teaching:*
 - Taught courses in management accounting, management control, programming, and accounting research, both large scale of hundreds of students and small-scale lectures
 - Kept developing curriculum and course materials, incorporating emerging topics, regulatory changes and industry trends, to increase the relevance of the courses
 - Developed interactive teaching styles and implement innovative teaching methods to motivate students, and the courses are positively and highly evaluated by students and colleagues
 - Being the course coordinator, collaborate with other colleagues to organize the courses
 - Supervise master theses, leading to students graduating with cum laude.
- *Research:*
 - Conducted empirical research in various topics, including incentive contracts, performance measurements, target setting, and ESG.
 - Kept improving understanding of economic, accounting and psychology theories and applying them in my research, enhancing skills for data analyses.
 - Presented my research at top international accounting conferences and universities in US, Europe and Asia, collecting feedback, fostering collaboration and developing communication skills.
 - Did research visits in Melbourne University Australia (2019) and Nanyang Technological University (2023)
- *Services:*
 - Organize internal research seminars, helping colleagues collect feedback on their projects
 - Ad hoc reviewers of various top accounting conferences and peer-review journals including Accounting Horizons and Management Accounting Research. Awarded best reviewer of 2019 American Accounting Association Management Accounting Section.
